

Eurospan[®]

by CONWED

A seamless solution.

Eurospan® is a unique stretch fabric acoustic system with a seamless, monolithic design that bolsters modern aesthetics with superior acoustic value. Eurospan® includes a track system, an acoustic core, and stretch fabric. Our fabric comes in **five stock colors**, **custom options**, and **EOS**, a washable surface. The versatile track system allows for both ceiling and wall applications while lending itself to several edge finishes and the ability to create unique angles within a design.

Great for: · Event Centers · Lobbys · Offices · Auditoriums · Showrooms

 <p>Noise reduction coefficient (NRC)</p> <p>0.85 – 0.90</p>	 <p>NAF available</p> <p>✓</p>	 <p>Fire rating</p> <p>Class 1/A (ASTM E84; tested at component level)</p>	 <p>Product warranty</p> <p>10 years (from date of shipment received)</p>

Product Details

Core construction: Comprised of three basic components: a fiberglass acoustic core, perimeter tension track, and outer textile covering. This seamless product uses a high-performance integrated fiberglass core with a white matte covering. Tension tracks arranged around the perimeter hold an acoustically transparent textile which can be stretched over areas 16' wide.

Thickness options: ½" – 2 ½"

Edge details: Edge reveals optional – Square, Bevel, Radius

Product application options:

- Wall system
- Ceiling system
