

TERRACORE POLY™

POLYESTER ACOUSTICAL TILES AND INFILL

What is **TerraCORE Poly™**?

TerraCORE Poly™ is an acoustic product manufactured with a special blend of very low denier polyester fibers which enhance acoustical performance. **TerraCORE Poly™** is an environmentally friendly substitution for fiberglass infill or as a stand-alone solution for ceiling tiles or walls. It is available in both standard and high densities. **TerraCORE Poly™** provides a safe environmental solution without limiting sound control.

Sustainability:

- Contains 80% post-manufacturing recycled material
- No added chemicals or binders
- Manufactured without the use of water
- Free of all Volatile Organic Compounds (VOC)
- No ozone depleting gases in manufacturing
- 100% recyclable
- Safe, non-irritant, non-toxic and non-allergenic

Designers Suggest:

- ✓ **Environmentally Friendly**
- ✓ **LEED V4 interiors**
- ✓ **Living Building Challenge**
- ✓ **Specialty interiors**

TerraCORE Poly™ Technical Data

COLOR	White or Black
THICKNESS	1" (Nominal) (Other thicknesses available)
SIZE*	4' x 4' Sheets (Stock) (Other sizes available)
COMPOSITION	100% Polyester
ACOUSTICAL TESTING**	.80 N.R.C. (Composite System Value)
FIRE TESTING**	ASTM E84 Class A (Composite System Test)

* Custom size available for container load orders.

** Test values include FabriTRAK, infill and fabric. ASTM tests available on www.fabritrak.com.
